<p><b>Definition “winning”</b></p> <p><b>Proposed effective date; 1 July 2023</b></p>	<p>The ITA defines “winnings” as winnings of any kind and a reference to the amount or the payment of winnings shall be construed accordingly.</p>	<p>Winnings are proposed to mean, the payout from a betting, gaming, lottery, prize competition, gambling or similar transaction under the Betting, Lotteries and Gaming Act without deducting the amount staked or wagered.</p>	<p>The government is attempting to regulate various social activities, through taxation, with betting considered as a social activity</p> <p>The proposal clarifies that the taxable value of a winning shall be the amount won without deducting the amount staked or wagered.</p> <p>This effectively affects the Punter as it lowers the take-home. .</p>
<p><b>Definition of “digital content monetisation”</b></p> <p><b>Proposed effective date; 1 July 2023</b></p>	<p>N/A</p>	<p>Digital content monetisation is defined to mean offering for payment entertainment, social, literal, artistic, educational or any other material electronically by;</p> <ul style="list-style-type: none"> <li>a. advertisement on websites, social media platforms</li> <li>b. Brand sponsorship</li> <li>c. affiliate marketing</li> <li>d. Content creators with subscription based services</li> <li>e. Content creators with membership programme</li> <li>f. licensing the content including photographs</li> <li>g. Crowdfunding for content creators</li> </ul>	<p>The proposed definition clarifies the scope of services.</p> <p>Businesses making payments to providers of the said services will need to deduct WHT of 15% and remit to the Kenya Revenue Authority.</p> <p>While this goes to improving cash-flows to the Treasury, the taxpayers who are already subject to other in-country tax obligations will need to enhance their planning around operational cash-flows.</p>

<p><b>Definition of “immovable property”</b></p> <p><b>Proposed effective date: 1 July 2023</b></p>	No general definition	<p>Immovable property is defined to include:</p> <ul style="list-style-type: none"> <li>a. land, whether covered by water or not, any estate, rights, interest or easement in or over any land and things attached to the earth or permanently fastened to anything attached to the earth, and includes a debt secured by mortgage or charge on immovable property;</li> <li>b. a mining right, an interest in a petroleum agreement, mining or Petroleum information;</li> </ul>	<p>The proposal seeks to expand the scope of immovable property.</p> <p>Tax payers will need to assess whether capital gains tax will be occasioned in the event of transfers for such immovable property.</p>
<p><b>Definition of “person”</b></p> <p><b>Proposed effective date: 1 July 2023</b></p>	No general definition	<p>The Finance Bill proposes the general definition of a person to include;</p> <ul style="list-style-type: none"> <li>a. a relative of that person, in the case of an individual; and</li> <li>b. a company</li> </ul>	<p>The Eighth Schedule to the ITA provides a Schedule specific interpretation of the term ‘person’.</p> <p>The proposal for a general definition will provide clarity that a person by definition includes both an individual and a company</p>
<p><b>Definition of “related person”</b></p> <p><b>Proposed effective date: 1 July 2023</b></p>	No general definition	<p>The Finance Bill proposes that two persons are related where a person participates directly or indirectly in the management, control or capital of the business of another person</p>	<p>A general definition is a welcome proposal as currently the definition is specific to Eighth Schedule, Section 18 of the ITA.</p> <p>This gives clarity on the definition of related party</p>

<p><b>Introduction of a claim period for deferred realized foreign exchange loss</b></p> <p><b>Proposed effective date: 1 July 2023</b></p>	<p>The ITA provides that companies shall defer realised foreign exchange loss where their gross interest paid or payable to related persons and third parties exceeds thirty per cent of the company's earnings before interest, taxes, depreciation and amortization in any financial year, with no specified duration within which deferred realized foreign exchange loss shall be utilized.</p>	<p>The Finance Bill proposes to amend the ITA to provide that the foreign exchange loss shall be deferred and claimed over a period of not more than three years from the date the loss was realized by a company whose gross interest paid or payable to a non-resident person exceeds thirty per cent of the company's earnings before interest, taxes, depreciation and amortization in any year of income.</p>	<p>The proposal aligns the deferral of realized foreign exchange to the proposed amendments on interest restriction rules. However, the introduction of 3 year period from the date the loss was realized, being the duration a person is eligible to claim realized foreign exchange loss will result in taxpayers forfeiting it where the interest restriction rules still apply.</p> <p>This will put pressure on Taxpayer to clear off debts within 3 years.</p>
<p><b>Tax on repatriation of income</b></p> <p><b>Proposed effective date: 1 January 2024</b></p>	<p>N/A.</p>	<p>The Finance Bill proposes to reduce the corporate tax rate from 37.5% to 30% and introduce tax on repatriated income for branches/permanent establishments (PE).</p> <p>Both corporate tax and tax on repatriated income shall be payable by the PE.</p> <p>A formulae on ascertaining the repatriated income has also been detailed.</p>	<p>Where the proposal is amended and succeeds, the choice to operate a branch/PE or a subsidiary will be influenced by the effective tax rate on the incomes sourced from Kenya. The Bill however has not proposed the applicable tax rate on the repatriated income.</p>

<p><b>Shares in lieu of cash emoluments by an eligible start-up company</b></p> <p><b>Proposed effective date: 1 July 2023</b></p>	<p>No specific legislation</p>	<p>The Finance Bill proposes that the taxable benefit from shares in lieu of cash emoluments by an eligible start-up shall accrue on the earlier of;</p> <ul style="list-style-type: none"> <li>a. 5 years from year of award ;</li> <li>b. disposal of the shares by the employee;</li> <li>c. date employment ceases with the eligible start-up</li> </ul> <p>Value of benefit shall be the fair market value of the share on the earlier of the above events. In its absence,, the Commissioner shall determine the value from the last issued financial statement.</p> <p>Definition of an “eligible start-up” is also given in detail.</p>	<p>Start-ups will often offer shares in lieu of cash emoluments to attract skilled personnel intended to steer the entity during the launch and growth phases.</p> <p>This proposal will enable start-ups offer competitive compensation packages to attract and retain skilled personnel.</p>
<p><b>Overpaid tax on non-residents payments limited from refund or tax credit, in case of an audit</b></p> <p><b>Proposed effective date: 1 July 2023</b></p>	<p>N/A</p>	<p>The Finance Bill proposes to restrict utilizing overpaid withholding tax incurred on non-resident payments, where an audit would result to an adjustment for lower tax being paid.</p>	<p>This proposal will largely affect taxpayers with non-resident-related party payments which rely on transfer pricing principles for their value to be determined.</p> <p>The proposal goes against principles of tax where a taxpayer shall not pay more or less than they ought to.</p>

<p><b>Taxation of income from registered trust for beneficiaries</b></p> <p><b>Proposed effective date; 1 July 2023</b></p>	<p>The ITA provides relief from tax for the following payments to beneficiaries of a registered trust;</p> <ul style="list-style-type: none"> <li>a. any amount used exclusively for the purpose of education, medical treatment or early adulthood housing;</li> <li>b. income paid to any beneficiary which is collectively below ten million shillings in the year of income; and</li> <li>c. such other amount the Commissioner may prescribe from time to time.</li> </ul>	<p>Proposed for deletion</p>	<p>Beneficiaries of the incomes from registered trusts will be subject to tax, if the proposal succeeds.</p> <p>Same proposal had been made in 2022</p>
<p><b>Tightened revenue band and increased Turnover Tax (ToT) rate</b></p> <p><b>Proposed effective date: 1 July 2023</b></p>	<p>The ITA provides that ToT at 1% shall be payable by any resident person whose turnover from business is between KES 1,000,000 and KES 50,000,000 during any year of income.</p>	<p>The Finance Bill proposes ToT at 3% shall be payable by any resident person whose turnover from business is between KES 500,000 and KES 15,000,000 during any year of income.</p>	<p>ToT is a tax on gross receipts. And it has not been very successful in the past. The reduction of Threshold will bring more Hustler businesses into the TOT Bracket and at a higher rate without providing an avenue to deduct business costs goes against a equitable tax system.</p> <p>Most taxpayers affected by ToT are within the Micro, Small and Medium Enterprises that require sufficient support including legislatively, to enable them plough back profits and expand.</p>

The National Housing Corporation</li> </ul> <p>shall be deducted when ascertaining taxable income of an individual.</p>	<p>The Finance Bill proposes to expand the list of institutions to include;</p> <ul style="list-style-type: none"> <li>a. A co-operative society registered under the Co-operative Societies Act (Cap. 490).</li> </ul>	<p>This proposal will likely encourage depositors and new membership into co-operative societies, so as to utilize savings towards home ownership.</p>
<p><b>Limitation of tax allowable expenditure if not compliant with electronic tax invoice management system</b></p> <p><b>Proposed effective date: 1 January 2024</b></p>	<p>Subject to the provisions of the ITA, expenditure wholly and exclusively incurred in the production of income is allowable when ascertaining taxable income.</p>	<p>The Finance Bill proposes that expenditure or loss where the invoices of the transactions are not generated from TIMS, except where the transactions have been exempted in accordance with the Tax Procedures Act, 2015, shall not be allowed when ascertaining taxable incomes.</p>	<p>This is intended to compel businesses to engage in business with other compliant businesses. This will certainly enhance monitoring and compliance enforcement, for the Commissioner of Taxes. However its success is dependent on a seamless operational TIMS.</p>

# Corporation Tax

<b>Issue</b>	<p>Introduction of the Digital Asset Tax (DAT)</p> <p>Proposed effective date; 1 September 2023</p>
<b>Current Provision</b>	<p>N/A</p>
<b>Proposed Provision</b>	<p>The Finance Bill proposes to introduce DAT at 3% of the transfer or exchange value of the digital asset.</p> <p>Income from a digital asset is gross fair market value received or receivable at the point of exchange or transfer of a digital asset. A digital asset shall include cryptocurrencies, token code and non-fungible token.</p> <p>The owner of a platform (including non-resident) or the person who facilitates the exchange or transfer of a digital asset shall deduct and remit DAT within 24 hours.</p> <p>The non-resident owner shall register under the simplified tax regime.</p>
<b>Impact/ Observation</b>	<p>In an ever changing digital age which presents “new” revenue streams, the proposed change will empower the Commissioner of Taxes to collect tax on incomes derived in Kenya.</p> <p>The proposal can consider a lower tax rate since the tax base is the fair market value.</p> <p>Persons responsible for remitting the DAT will face administrative challenges to comply with the 24-hour timeline. The Bill however, has not clarified whether the proposed tax will be a final tax or, the beneficiary will be expected to account for additional corporation tax currently at 30% or potentially capital gains tax at 15%. In addition, any losses made should also be considered in arriving at the taxable income</p> <p>The proposal should also consider revising the effective date since the 1 September 2023 date, will be on short notice for persons such as non-residents who would have to operationalize systems to facilitate remitting the tax due.</p>

<p><b>Interest restriction limited to loans from non-residents</b></p> <p><b>Proposed effective date: 1 January 2024</b></p>	<p>The ITA provides that gross interest paid or payable to related persons and third parties to a maximum of thirty per cent of earnings before interest, taxes, depreciation and amortization of the borrower, shall be allowable for tax.</p>	<p>The Finance Bill proposes that such restriction shall only apply to gross interest paid or payable to non-resident persons.</p> <p>Residual interest after restriction in a given year of income shall be allowable in the subsequent three years of income, subject to the thirty percent threshold provided.</p> <p>Interest restriction shall not apply to exempt interest.</p> <p>The definition to “all loans” is also proposed to exclude local loans.</p>	<p>The proposal is a welcome relief for businesses that often rely on debt from resident financial institutions to boost financing of capital and operations expenditure.</p> <p>Express exclusion from interest restriction rules for exempt interest, allows for certainty in comprehending the ITA. For example interest on infrastructure loans from non-residents, shall not be considered for interest restriction.</p> <p>The proposal to allow deduction of residual interest after restriction in subsequent 3 years aligns to international best practice.</p>
<p><b>Interest restriction rules to apply on companies with investment of at least five billion shillings</b></p> <p><b>Proposed effective date: 1 January 2024</b></p>	<p>The ITA excludes;</p> <ol style="list-style-type: none"> <li>a. Manufacturing companies whose cumulative investment 5 years prior to 1 July 2022 is at least five billion shillings; and</li> <li>b. Manufacturing companies whose cumulative investment is at least five billion shillings:</li> </ol> <p>from application of interest restriction rules provided the investment shall have been made outside Nairobi City County and Mombasa County.</p>	<p>The provision is proposed for deletion.</p>	<p>Not many entities had this kind of investments and this proposal is viewed as the government's attempt to accelerate the time within which the manufacturing companies will utilise any tax losses they would have from large investment deductions.</p>

Inclusion of partnerships to persons that transfer property;</li> <li>b. gains from disposal/transfer of interest including interests in a partnership or trust, if, at any time during the year preceding the disposal/transfer such interests derived more than twenty per cent of their value directly or indirectly from immovable property situated in Kenya, or</li> <li>c. Gains from disposal/transfer of shares of a company resident in Kenya, if the alienator, at any time during the year preceding such disposal, held directly or indirectly at least twenty per cent of the capital of that company</li> </ul>	<p>Currently, capital gains tax is chargeable to indirect transfers on mining rights granted in Kenya. The proposed introduction seeks to broaden that scope and include indirect transfers in any other person.</p> <p>Persons disposing off their interest shall also be required to determine whether such interest has derived more than 20% value whether directly or indirectly, from a Kenya- property rich entity. To this end, it will be important for there to be further guidance on how to ascertain the 20% value derived from immovable property in Kenya.</p> <p>The above proposals are geared toward boosting revenue collection in Kenya.</p>

Interpretation (w.e.f 1 <sup>st</sup> July 2023)	“Excise control” has the meaning assigned to it in section 23 “Commissioner to notify licensee prior to suspension of license”.	Section 2 of the Excise Duty Act, 2015, is amended in the definition of “excise control” by deleting the expression “section 23” and substituting therefore the expression “section 24” “Excisable goods under excise control”.	This provides clarity on the definition of excise control. Therefore implying that excise control is the control the Commissioner has over excisable goods stored in the factory of a licensed manufacturer.
Adjustment for inflation (w.e.f 1 <sup>st</sup> July 2023)	Commissioner has power to, adjust the specific rate of excise duty once every year to take into account inflation	To repeal section 10 that provides for “Adjustment for inflation”	Previously, there were concerns over the expected methodology used in ascertaining the adjustments since different sectors are impacted in different manners making it difficult to ascertain the adjustments imposed by the Commissioner and thus this is a relief to taxpayers.

# Tax Appeal Tribunal Act

Payment of 20% taxes before appeal to the High Court  (Effective date 1 <sup>st</sup> July, 2023)	Not applicable	The Bill proposes to amend the Tax Appeals Tribunal Act, 2013 requiring taxpayers to deposit 20% of the tax in dispute or equivalent security before they file an appeal to the High Court against a decision of the Tax Appeals Tribunal. The provision is not applicable where the commissioner is appellant.	<p>The provision is punitive where the assessment is exaggerative and wrong and directly denies the taxpayer the right to appeal and access justice.</p> <p>The proposal discriminates the taxpayer against KRA yet there should be equality in the eyes of law.</p> <p>This law had been proposed in FB 2022 with a rate of 50% but was not adopted.</p>
